WORK EXPERIENCE

The Bodrum Edition, Marriott International

Finance Intern

July 25-Aug 25

- Supported daily finance operations including invoice processing, cost control, and reconciliations. Gained exposure to budgeting, revenue management, and financial reporting systems within the hospitality industry.

SKILLS

Languages: **Turkish**: Native, **English**: Professional

Tech Skills: Excel (VBA), SQL, Python (NumPy, pandas)

PROJECTS

Crypto Index Fund: In this project I built a crypto index fund with using python libraries such as numpy and pandas. I back tested my fund against bitcoin. My index outperformed other crypto investing tools on both risk and return metrics.

Sleep Study: In this project, I used a dataset of university students in the United States to examine the correlation between variables such as sleep, GPA, and alcohol consumption. I also made statistical estimates of the average GPA and sleep hours of university students in the United States.
